KNOWLEDGE FORUM 2021

Organized by : Diabetes Healthcare and We Sansthan

Dear Friends,

Knowledge forum is a conglomerate of Hospital Associations, Regional API Chapter, General Practitioners, Academicians and 'Diabetes Healthcare & We Sansthan' based in Western Rajasthan. Knowledge Forum is exceptional in terms of not only the range and quality of the submissions, but also in terms of the circumstances in which it is taking place.

When COVID-19 pandemic broke out, it threw all of us into uncharted waters in search of a new normal. The need for trusted platforms that encourage, nurture, and protect free speech and academic exchange is always recommended by medical fraternity. Knowledge Forum provides such a platform, underlining the importance of the work of the Medical research, and its continued strong presence in our day to day practice.

Annual Conference of Knowledge forum in 2020 was shifted from an on-site event to a wholly online forum & now a two days Virtual conference is being held on 28th & 29th August 2021.

This Virtual conference encompasses two full days dedicated to some important diseases which we come across in our day to day practice. The topics are chosen based on the current scenario and clinical requirements. A galaxy of experts of repute will share their experiences to make the event a complete scientific bonanza. There will be ample opportunity to interact with teachers and faculties.

Your participation will go a long way to make the event successful.
